The 1080i has 48 programmable keys with 12 self-label keys

Touch

Homescreen display

The home button will display icons on the right handside, messaging, a telephone icon which once pressed will direct you to call options, contacts, call log and apps. This is the default view, until an icon is pressed. To return to the default screen, press the home key.

Telephone icon from the homescreen

To make a call press the speakerphone button or to reach the full feature set press the telephone icon from the default home screen. This guide is based upon the display after you have pressed the telephone icon from the default home display.

Dealing with Calls

Incoming calls

To answer the call, lift the handset or press the speakerphone button.

External calls

The 1080i has a "live dial pad" which means you do not need to lift the handset or press the Speakerphone button to start a call. To place a call, dial the desired number. Outgoing calls can also be placed from the contacts, logs as well as speed dial.

Internal calls

Lift the handset. Dial the extension number or press the flex key assigned to the contact.

Placing a call on hold

Press **Hold** button, the button will light to indicate there is a held call.

Rejecting a call

Press the **DND** button when a call comes in.

Transferring a call

Transferring a call

Press the **transfer** button or **TRANS** soft key on the touch screen display. Dial the extension number, external number or press the programmed flex key. Either speak to the recipient to announce the call, or simply hang up.

Returning to caller from a Transfer

Press the **transfer** key to return to caller.

Quick access call tools

Speed

On the screen reached from the telephone icon from the default home screen, Press the **Speed** button once to access directory options.

Press 1 for your company directory

To search for your speed dials press the search key

Press 2 for your internal extension list

Pick up

Press the **pickup** soft key to answer a call ringing on a different station (system config required). (if you do not have this option on the touchscreen display, press the home button, followed by the telephone icon).

Menu

The **menu** soft key gives you access to the phones key set up features such as contacts, call logs, settings calendar, clock and camera. (if you do not have this option on the touchscreen display, press the home button, followed by the telephone icon).

Last number redial

From the touchscreen, press the **redial** soft key to display the last numbers dialled. Select required number and press send to initiate the call. (if you do not have this option on the touchscreen display, press the home button, followed by the telephone icon).

Call waiting

Camp on

When dialing an extension that is engaged, the Camp On feature allows the station to be notified that there is a call waiting. If the called party is busy, you may activate Camp-On which allows you to wait off-hook for the called station to answer.

Do not disturb

Press the **DND** button to activate.

Press the **DND** button again to deactivate.

Redialling a number

Recent calls

To access recent calls, press menu followed by call log. (if you do not have this option on the touchscreen display, press the home button, followed by the telephone icon)
